Dear Sir,

Subject: ZINGAMETALL products

This is in reference to your request for introduction of Zingametall products in PDO projects.

We have no objection in using the Zinga Cold Galvanizing System and other associated products for corrosion protection and inhibition for steelworks **only** in our projects as an alternative to 'Hot Dip Galvanizing'.

Please note that PDO does not have any category for the provision of galvanizing products, hence Zingametall cannot be listed in PDO approved vendor list for this type of coating.

Sincerely,

Talal Nabhani – UEC1
