

BRIDGE RAILING LINSSSEN – KINROOI – BELGIUM

In 2016, the company “**Straalwerken LINSSSEN**” from Dilsen-Stokkem (Mr. Geert Linssen) protected a few bridge railings against corrosion with **ZINGA**, including in the Doorslagstraat, in the Itterstraat and in the Sevenstraat.

System: **ZINGA + ZINGALUFER + ZINGACERAM PU** in RAL 5017 blue

There are still a number of bridge rails that he has to deal with, but in 2016 there was no longer a budget available. In 2021, or 5 years after the first **ZINGA** application, there will be another on-site inspection to investigate the condition of the other bridges.

System:

Surface preparation Blasting to SA 2.5

ZINGA

ZINGALUFER

ZINGACERAM PU in RAL 5017 blue

Blasting of the bridge railings in the Itterstraat.
