

## GRAIN CONVEYOR – PACIFIC ELEVATORS – VANCOUVER – CANADA

In 1998 the company **PACIFIC ELEVATORS LTD** decided to refurbish their grain elevator in Vancouver.

After consulting with the consulting engineers from 'Villholth Jensen and associates' it was decided that **ZINGA** would be used on the 200 ton structure.

**ZINGA** was used on all the larger - non-mobile - parts of the structure.

### System:

Surface preparation:

Blasting to SA 2,5 and Rz 50-70  $\mu\text{m}$

ZINGA            2 x 60  $\mu\text{m}$  DFT
