

CABLE CARS NGONG PING – LANTAU – CHINA

The Ngong Ping 360 is a tourism project on Lantau Island in Hong Kong. The project was first referenced as "Tung Chung Project" before being named "Ngong Ping 360" in April 2005.

The Ngong Ping cable car is a gondola lift built by the Italian cable car manufacturer **LEITNER** Ropeways. Ngong Ping village has a shopping center and an amusement park near the cable car.

These are the biggest attractions of the Ngong Ping 360 site.

Between August 2005 and December 2007 **ZINGA** was used for the repair of metal structures formerly galvanized and damaged, on all the pylons of the cable car.
