MINISTRY OF ELECTRICITY AND WATER

Date: 15.8.1995
Ref.: MEW/30/K/2290

Messrs. Khalil Bahman Trading Est.
P. O. Box 5236 Safat
13053 Safat

Dear Sirs,

Subject: Use of "zinga" in paint and galvanizing works
for metal surfaces that are exposed to corrosion

With reference to your letter dated 22.6.1995 concerning the above-mentioned subject, we wish to inform you that we do not object to approving "zinga", as referred to in the documents attached to your said letter, being manufactured by Zinga Metall, of Belgium, for use in the galvanization of external metal surfaces exposed to corrosion by atmospheric influences or soil reactions. This product will be taken into consideration in the future in the execution of any of the projects of the Ministry's projects which include painting or site protection works through the approved contracts of the Ministry, in order for the said product to be included with the materials to be used in such works.

Sincerely yours,

(signature)
Under-secretary of Electricity and Water
Yousef Mohammed al-Hagery
Assistant Under-secretary for
Electric Transmission Networks and Control Centers.
