

PYLONS – ENSA POWER STATION – PERU

ENSA (part of group Distriluz) is a Peruvian company that is active in the electricity sector. Its market power in a geographic area of concession covers 139.63 km², in the regions of Lambayeque, Amazonas and part of Cajamarca. They serve more than 256,000 customers, geographically divided into five business units: Chiclayo, Chachapoyas, Jaén, Cajamarca and Branches.

In February 2012, **ZINGA** was applied on the steel structures of an electricity station of **Distriluz – ENSA**.

ZINGA was applied to repair the old hot-dip galvanisation and thus recharge the galvanic protection.

The company that did the cleaning and the application was **PACOSA** (contractors of ENSA).

System:

UHP water washing

Sandblasting SA 2,5 and Rz 50-70 µm

ZINGA 1 x 60 µm DFT
