

RENOVATION OF GRAVESTONE IZYDOR POLANSKI - POLAND

In 2011, Ms. **Monika Jamroziewicz Filek** (restorer) used **ZINGA** (in combination with a polyurethane paint) to restore the cast iron gravestone of Mr. Izydor Polanski. The gravestone of Mr. Izydor Polański was made in the 19th century in Neo-Gothic style. It is one of the most beautiful examples of artistic crafts at the Łyczakowski Cemetery in Lvov. The gravestone was restored by the **Polish Society for The Protection of Historical Monuments** and this was financed from the funds of the **Ministry of Culture and National Heritage**.

System:

Sandblasting, degreasing (using Zingasolv)

ZINGA 2 x 60 µm DFT

Polyurethane Topcoat 1 x 60 µm DFT
