

Coastguard vessel – Incheon – South-Korea

A trial application was done with **ZINGA** on a coastguard vessel in South-Korea. The existing coating was entirely removed and the surface was treated with a salt remover. **ZINGA** has been applied as a primer and topcoated with Vinyl Paint FS-26081. This topcoat is regularly supplied to the **South-Korean coastguard**.

Before treatment

Removal of the existing coating

After removal of existing coating

System:

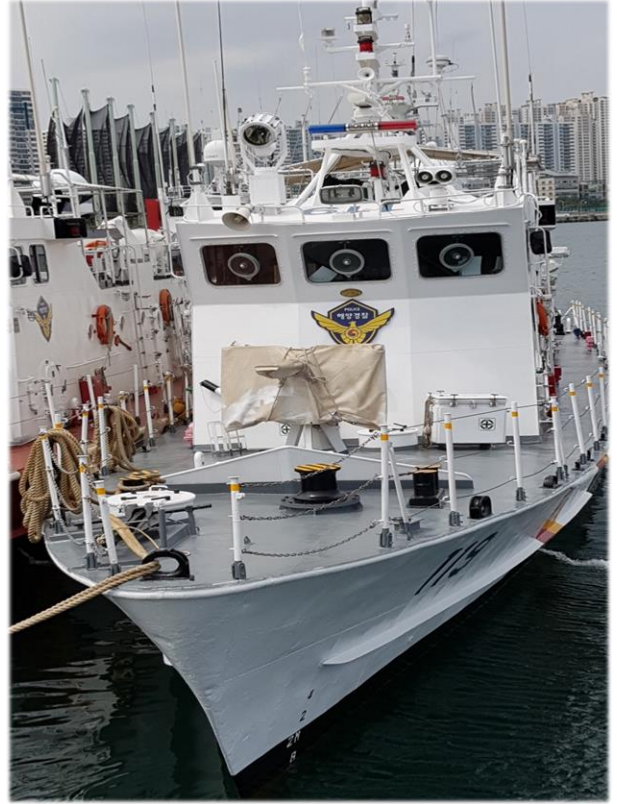

Surface preparation: St 3

ZINGA 1 x 60 µm DFT

Vinyl Paint FS-26081

Application of **ZINGA**
