

ZEPHYROS WINDMILLS – TAIWAN POWER CY. – TAIWAN

The **TAIWAN POWER COMPANY** has awarded the building of 22 windmills on the coast of Kaohsiung, to Zephyros. In April 2005 they started to apply the coatings in a workshop. Here you can see the application of **ZINGACERAM EP** on top of **ZINGA**.

System:

Outside surface :

ZINGA 1 x 60 µm DFT
Epoxy topcoat 2 x 100 µm DFT

Inside surface :

ZINGA 1 x 60 µm DFT
ZINGACERAM EP 2 x 100 µm DFT

These pictures were taken during an inspection visit in June 2005.

Two poles had already been erected.
