

## PIPES AND JETTY – IRPC – THAILAND

**IRPC Public Company Limited** was Southeast Asia's first fully-integrated petrochemical complex and is in Rayong on its own industrial park with supported facilities such as a deep seaport, tank farm and a power plant.

In 2009, **ZINGA** was used to repair rust spots on the jetty (gas pipes and supporting structure). Up till today around 15,000m<sup>2</sup> of the 50,000m<sup>2</sup> structure has been repaired using **ZINGA** and **ZINGALUFER**.

### System:

On rusted parts:

ZINGA                      1 x 40 µm DFT

On old adhering paint:

ZINGALUFER              1 x 80 µm DFT
