

## PIPELINES – GUJARAT GAS COMPANY – INDIA

**Gujarat Gas Company Limited (GGCL)**, is one of India's leading natural gas distribution companies. Established in 1980, and headquartered in Ahmedabad, the company operates primarily in Gujarat.

As of 2010, GGCL supplied piped natural gas to over 300,000 homes, commercial and industrial establishments across Gujarat.

In 2003, the pipelines of the Adajan Gaon gas distribution substation in Surat Gujarat were protected with **ZINGA** to prevent them from corroding.

Subsequent examinations of the coatings have been done every 6 months thereafter, and till date the coatings are as good as new.

After being fully convinced about the special features of the duplex coating, GGCL chose this system for coating 1200 meters of gas pipelines. These 2 pipelines , were coated in 2005, with excellent results.

### System:

#### Surface preparation:

Blasting using copper slag to SA 2,5  
and Rz 50-70µm

ZINGA

1 x 60 µm DFT

PU topcoat
