

METRO – MINSK – BELARUS

Between February and October 2007, **ZINGA** was applied on the several entrances of the Metro station "Park Cheliuskintsev" in Minsk, Belarus.

A total amount of 3.000 kg of **ZINGA** was used, followed by a primer and topcoat after 24 hours drying. The customer SP OO TRAIPLTEHNO expressed his complete satisfaction.

System:

Surface preparation:
Sandblasting Ra 15 µm

ZINGA	1 x 40 µm (spray gun)
